what is rosebuds?

Our Alpha Gam sisterhood is a special thing. It's a connection based on meaningful relationships and shared experiences. Why not share this bond with some of the most important people in our lives—our daughters, friends and young family members?

Rosebuds—a new program being developed by the Fraternity's Alumnae Programs team—is an ideal way to combine your love for Alpha Gamma Delta with your desire to spend meaningful time with the important young people in your life.

Rosebuds will be an ideal way to include your loved ones in mutually beneficial activities.

Through engaging events—like community service, fun bonding activities, playgroups and much more— young girls will benefit from positive exposure to our treasured Alpha Gam ideals. They will develop pride in themselves as women and grow to appreciate their generational connections and admire the sisterhood that Greek organizations provide.

Plus, Rosebuds events will be a great way to meet new sisters and spend time with old friends—making it easier for us to continue our Fraternity involvement during the busy child-rearing years.
