What stood out?

# *Fighting Hunger and Food Insecurity*

“The state of being without reliable access to a sufficient quantity of affordable, nutritious food.”

# Hunger Statistics in Canada

# Hunger Statistics by the Numbers

If your campus has:

- 2,000 students, 250 of them may struggle with hunger
- 5,000 students = 625 students
- 15,000 students = 1875 students
- 50,000 students = 6250 students

What does that mean to you?
